 and Director of Alunatime

IALD Presents: The Aluna Project

Where enlightenment and illumination meet

Don't miss this revolutionary event! Complete and return the registration form on the back side. Pre-registered IALD members attend free of charge.

Aluna — a unique proposal for the world's first tidal powered Moon clock — will be a monumental timepiece for the planet, a beacon for a sustainable future, reconnecting people with the Moon and tides. You'll have the opportunity to connect with your colleagues as you learn more about this landmark timepiece during our magnificent education forum. United Kingdom artist and designer Laura Williams will shed light on how Aluna combines cutting edge lighting technology with an ancient knowledge of the Earth's natural rhythms to demonstrate efficiency, longevity and maintainability for future generations.
